To be honest, my conscience giving me caution, I'm
dealing with all this nonsense
To be honest, I'm talking to all my aunts and they
giving me bad responses
Girl, I'm a be honest
They got trickery in their pockets, they're hearts are
blacker than onyx
And girl, let's just be honest
I feel like I'm on narcotics with you, I feel so erotic
You know I'm a workaholic
If your fingernails are still polished you're planning to
go to college
Then we shouldn't have to worry
That you live your life in a hurry
You drivin out so it's blurry
We fallin down in a flurry
You serious... you go through these periods when you
hang with these eerie kids
And you call me while you're delirious and tell me how
it's going and they I sought to get furious
You go up in a room, play Ciel, light a candle
I play Bella's Lullaby while I cry on the piano
People questioned that I love her
Just know it cuts deeper than what all them bracelets
cover and that's very true
In this evening undercover
It's just to uncover all the magic that is happening this
summer
And girl, you'll always be my lover
But then a time will come when you'll go and find
another
But you'll always be my star
(Girl, you'll always be my star)
(No matter where you are)
Trust me, you'll always be my star
Back in... I don't even remember... how old I was
(You'll always be my star)
Trust me, you'll always be my star
I might have been like 8. I had my first girlfriend
I guess we've been messing up ever since
I don't do it on purpose so...

I guess... I don't know what this means
That can touch my body
Who's loving everybody
But is loving nobody but me
What me and her doing on my spare time
And I'm just happy that it's over
And I'm not the one to look over my shoulder
Keep it moving forward
If I'm looking back I'm gonna try
And she told me that I'm really just a selfish kind of guy
Well I guess she knows me best
But it didn't feel like it when her hands were on my
chest
I guess that Costa Rica and Philly was very selfish of
me
Well I'm sorry girl, I'm just silly and I feel hopeless if
that's true
Because you know that them really is a very lonely
when you're gone and we were chilling until we uh...
broke up
You was there when I woke up
Got emotions that we can soak up
Girl, I can be your soldier
And I'll never take that promise back
It wasn't for you I would just counteract
Prince Charming may come one day
And girl I'm fine with that'
But you'll always be my star
You'll always be my star
You'll always be my star
Girl, no matter where you are
Trust me, you'll always be my star
You'll always be my star
You'll always be my...
Girl you'll always be my star
Cause this room is really starry
This is me telling every girl I've dated, that I'm sorry
Yea it's really starry
This is me telling every girl I've dated, that I'm sorry
Cause This is me telling every girl I've dated, that I'm
sorry
This is me telling all them other girls that I'm just sorry
cause
Man, this room is really starry
Girl, you know I'm sorry
This room is really starry
Rachel, girl I'm sorry
Man, this room is really starry
And it's time I should say sorry
But it's bright outside
Girl, in here it's really starry

Olivia I'm sorry but this room is so... starry
