To be honest
My conscience giving me caution
I'm dealing with all this nonsense
To be honest
I'm talking to all my Aunts and they giving me bad
responses
Girl Imma be honest
They got trickery in their pockets
Their hearts are blacker than onyx
And girl let's just be honest
I feel like I'm on narcotics with you
I feel so erotic
You know I'm a workaholic
If your finger nails are still polished
You're planning on going to college
Then we shouldn't have to worry
But you live your life in a hurry
You driving now so it's blurry
We falling down in a flurry
You serious
You go through these periods
Where you hang with these eerie kids
It's hilarious
And you call me while you delirious
And tell me how it's going and then I start to get furious
You go up in your room lazy and light a candle
I play Bella's lullaby while I cry on the piano
People question did I love her
Just know it cuts deeper than what all them bracelets
cover
And that's very true
And this ain't another cover
This is to uncover all the magic that is happening this
summer
And girl you'll always be my lover
But then a time will come where you go and find
another
But you'll always be my star
(yeah girl you'll always be my star)

Man, I remember

Back in I don't even remember how old I was
But, might have been like 8
when I had my first girlfriend
I guess I been messing up ever since
I don't do it on purpose though
I guess, I don't know if it's me or what

I want somebody
That can touch my body
Who's loved by everybody
But's loving nobody but me
And nobody can see
Me and her are doing on our spare time
That was our time
It isn't there time
And I'm just sad because it's over
and I'm not the one to look over my shoulder
Keep on moving forward
If I'm looking back I'm gonna cry
If she told me that I'm really just a selfish kind of guy
Well I guess she knows me best
But it didn't feel like it when her hands was on my chest
I guess that Costa Rica and Phili was very selfish of me
Well I'm sorry girl I'm just here laying
And I feel hopeless if that's true
Because you know that
I'm really so very lonely when you're gone
And we were chilling until we, broke up

Know what?
You was there when I woke up
Got emotions that we could soak up
Girl I could be your soldier
Girl I promise that
And I'll never take that promise back
It wasn't for you I would just counteract
Prince charming may come one day
And girl I'm fine with that
But you'll always be my star
You'll always be my star
Girl you'll always be my star
Girl no matter where you are
Trust me you'll always be my star
Girl you'll always be my star
You know that
Girl you'll always be my star

Cuz this room is really starry
This is me telling every girl I've dated that I'm sorry
Yeah it's really starry
This is me telling every girl I've dated that I'm sorry

Soph, girl I'm sorry
This is me telling every girl I've dated that I'm sorry
Kennedy, I'm sorry
This is me telling all them other girls that I'm just sorry
And this room is really starry
And I'm sorry
Girl you know I'm sorry
This room is really starry
Rachel girl I'm sorry
This room is just so starry
And this time it's just so starry
Man it's bright outside
Girl in here it's really starry
Olivia I'm sorry
But this room is so, starry
Girl, I'm sorry
This room is so starry
Stella, girl I'm sorry
