Let the children rule the world for just one day

Its getting pretty crazy here in outer space

Nation against nation dynamite in a gum ball machine

The ones who pop the bubbles are the puppets who pull
the strings

Chorus

Let the children rule the world for just one day
x2xXaxexioxTX

Rattle rockets into chocolate and melt the governments
into clay

Let the children rule the world for just one day

Verse 2

Let the children rule the world for just one day
Plastic armies are spilling much too much blue
lemonade

Kingdom against kingdom while you jump for joy

Madmen tinker with glowing atomic toys

Chorus

Verse 3

Let the children rule the world for just one day

Sand castles of wicked rich kings will all wash away

Empire against empire Pied pipers on your knees

Let the children rule the world from sea to shining sea
