Millennium Child hold onto what you have inside
Take yesterday and let it go
Millennium Child its not a question of how hard you try
Its a matter of choosing the right road

You've got a one way ticket to the kingdom of heaven
You're on a beautiful carnival ride
So when you fall upon hard times
just smile your little sweet smile
Millennium Child

Millennium Child wont you walk just one more mile
And dont ever lose your way home
Millennium Child you laugh but you want to cry
You hide away your tears but they still show

You've got a one way ticket to the kingdom of heaven
You're on a beautiful carnival ride
So when you fall upon hard times
just smile your little sweet smile
Millennium Child
