There's only one place I gotta be  
With music all over me  
Baby there's heartache on the dance floor

DJ show me some sympathy  
Now where the hell's my freakin' song  
Turn it up put it on for me  
I just wanna get it on

The disco lights are calling  
Electric tears are falling  
And with every move I make  
I smile but I'm just faking  
Cause inside I'm breaking  
When I wanna escape

There's only one place I gotta be  
With music all over me  
Baby there's heartache on the dance floor  
With the beat as my remedy  
Midnight emergency  
You know there's heartache on the dance floor  
Dance with me  
da-da-da-dance with me  
Put your hands on me  
Heartache on the dance floor

I gave love everything I had  
To get it thrown back in my face  
Looking hot but I'm feeling bad  
As I'm winding up my waste

The disco lights are calling  
Electric tears are falling  
And with every move I make  
I smile but I'm just faking  
Cause inside I'm breaking  
When I wanna escape  
There's only one place I gotta be  
With music all over me  
Baby there's heartache on the dance floor  
With the beat as my remedy

Midnight emergency  
You know there's heartache on the dance floor  
Dance with me  
da-da-da-dance with me  
Put your hands on me  
Heartache on the dance floor

Dance with me  
da-da-da-dance with me  
Put your hands on me  
Heartache on the dance floor

I got it, I'm with it  
I know just what to do  
Just gimme a minute  
And I'll be over you  
I got it, I'm with it  
I know just what to do

There's only one place I gotta be  
With music all over me  
Baby there's heartache on the dance floor  
With the beat as my remedy  
Midnight emergency  
You know there's heartache on the dance floor

Dance with me  
da-da-da-dance with me  
Put your hands on me  
Heartache on the dance floor
