Lyrics:

You can't be pushing up on it
You better work if you want it
You can't be pushing up on it
You better work if you want it
You can't be pushing up on it
You better work if you want it
You can't be pushing up on it
You better work if you want it
Don't even call me, if you got
About 2, 3 other boos
Coz if you want me
You gon' have to give
More than usual
Will be no playing
One more time is just
Way too valuable
I don't like, so don't try
To be like the last guy
Way too comfortable
I want ya hold me
If you want to stand
right here next to me
Gotta be the only,
Only chick in this room
This room you see
So if you want me
Gotta give, gotta give
Me your everything
Coz I need the right guy
To be on the right side
Giving it all to me
[Do you really want me?]
Out of many responsibilities?
[Do you really want me?]
Text out the box, said to
Bring me some money
[I-I said do you really want me?]
Get ready, get pretty boy
You should have a breeze

[Do you really want me?]
Proof yourself now, make
You real to me, well..
You better work (x16)
You can't be pushing up on it
You better work if you want it
You can't be pushing up on it
You better work if you want it
Now whatcha gon' do, baby?
Tell me tell me whatcha gon' do, baby?
Whatcha gon' do, baby?
Tell me tell me whatcha gon' do?
Whatcha gon' do, baby?
Tell me tell me whatcha gon' do, baby?
Whatcha gon' do, baby?
Tell me tell me whatcha gon' do?
You work on it, and ahead, boy
Make you clear to me
Coz how you gon' give?
Smiling and keep
fidgetting, you and me
I'm more than cuteness,
Lives to hope to be living
In make believe
So don't be at the wrong
Time besides 7, by then
It's right for me
I want ya hold me
If you really got just
What it takes
Why don'tcha show me?
Go ahead but why don't
You make my day
Coz I've been waiting
Long enough, now it's
Time to take your place
Coz I need the right guy
To be on the right side
Giving it all to me
[Do you really want me?]
Out of many responsibilities?
[Do you really want me?]
Text out the box, said to
Bring me some money
[I-I said do you really want me?]
Get ready, get pretty boy
You should have a breeze
[Do you really want me?]
Proof yourself now, make
You real to me, well..
You better work (x16)

You can't be pushing up on it
You better work if you want it
You can't be pushing up on it
You better work if you want it
Now whatcha gon' do, baby?
Tell me tell me whatcha gon' do, baby?
Whatcha gon' do, baby?
Tell me tell me whatcha gon' do?
Whatcha gon' do, baby?
Tell me tell me whatcha gon' do, baby?
Whatcha gon' do, baby?
Tell me tell me whatcha gon' do?
Step into a cutie, all the way
10's up, talking about the callers
And you won't lay back
Gotta get a little dirty
If you want my love
Coz I'm worth it yeah,
I'm so worth it, yeah
Let me see ya work (x9)
You better work.
Work it up now (x8)
You better work !
