Like a melody that comes to me that I can't seem to
shake
That book I've read a dozen times but still keeps me
awake
That movie I've seen so much I know every single line
Of all the things that get me every time

You're my favorite
You're my best
You're the reason my heart jumps out my chest
You're my savior
You're my grace
You're the smile I've been wearing on my face
You're my favorite

I've seen the perfect sunset paint the desert sky
A clear night on the ocean when the stars came alive
The snow fall in Wyoming just in time for Christmas Day
Next to you they're just okay

You're my favorite
You're my best
You're the reason my heart jumps out my chest
You're my savior
You're my grace
You're the smile I've been wearing on my face
You're my favorite

You're my favorite
You're my best
You're the reason my heart jumps out my chest
You're my savior
You're my grace
You're the smile I've been wearing on my face
You're my favorite
You're my favorite
