Yeah, pair of P, DAT  
Parachute crew  
I thought that she was going right  
Where do you go now?

Hook:  
Feeling like the winter's gone  
Ohhhhh, baby you are at the door  
You can feel the winter's gone!

Alright, look!  
Look, I know I messed up  
Ain't hard for me to say  
But life ain't perfect, everybody make mistakes  
But I always do when you always complain  
And I told you to leave, but you always stay.  
I swear I'm no good, but you always see the best in me  
Chilling with another chick, while you're texting me  
I get home, you see the guilt and regret in me  
Tears falling down your face when you're sexing me  
But I'm still going in like a curfew  
Sometimes I don't think I deserve you  
But on real I ain't never meant to hurt you  
You know your love got me geek like..  
And now you wanna leave in a hurry too  
Just know I'll always be around like a circle  
Damn! I was hoping you was gonna ride  
But, you're going now, way to go now!

Hook:  
Feeling like the winter's gone  
Gone, you can feel the winter's gone  
..I gotta go!  
Maybe you're about to go  
You can feel the winter's gone  
You're about to go, you can feel, you can feel!

Look, love like a card game  
You gave me your deck of cards, now I feel like a  
choker  
Cause I play with your heart

This ain't no VCR, DVD or BlueRay  
But I wish I knew two lines to bring your tears to a pass  
Damn! But life goes on, and while everything so right,  
go wrong  
And why everything we can't have we want  
And why when it's time to fight bro, we run?  
And now we're looking like we re-run  
I ain't seen this before and the end we don't  
At the end we want, at the end I lost  
Lost something real good, and it's all my fault  
And now I'm in the... spilling all my thoughts  
Hoping you stay with the lines I cross  
Damn! I thought that you was going right  
But you're gone now, wanna go now!

Hook:  
Feeling like the winter's gone  
Gone, you can feel the winter's gone  
..I gotta go!  
Maybe you're about to go  
You can feel the winter's gone  
You're about to go, you can feel, you can feel!

Yeah, and I thought that you was gonna ride  
But you're gone now, wanna go now  
I say you're going now, wanna go now!  
We used to love now, the love is gone now  
I said you go now, you wanna go now  
You're so gone now, you wanna go now  
Still hope to see your name in my phone now  
Where did you go now, wanna go now?

Hook:  
Feeling like the winter's gone  
Gone, you can feel the winter's gone  
..I gotta go!  
Maybe you're about to go  
You can feel the winter's gone  
You're about to go, you can feel, you can feel!
