I'm so in love with you it's forever

I'm never feeling lonely
Baby 'cause you're by my side
Going crazy in the really
Think you should be here tonight
Hoping I can taste your kisses all the time
So love me baby 'cause you make me feel so fine

We will be in heaven
We will be in heaven
I just can't wait any more of dreaming of you
We will be in heaven
We will be in heaven
I'm so in love with you it's forever

When I hear the talk of all my friends
I'll have to make them see
That our love is build forever
They been all each own idea
Oh Baby we should do another time
It's an image but I won't deny

We will be in heaven
We will be in heaven
I just can't wait any more of dreaming of you
We will be in heaven
We will be in heaven
I'm so in love with you it's forever
