Uh boy, light my fire tonight
Come on, feel the tryin inside
Uh boy, we'll make our dreams come true
Believe it, I know just what to do
Let's dance baby you will be mine
Let's kiss promise I'll take my time
Oh jeah gotta learn to let go
I just wanna get with your flow
I make you come alive
Just feel the heat inside

Make love to me tonight
And feel my body tight
Make love to me tonight
The stars are shining bright
When it comes to passion
Make love to me tonight and feel my body tight

Boy you'll have to blow my mind
I know honey, that is a grind
You don't even what you've got
You are really hitting my spot
Uh boy all the way you're designed
Just can't get you out of my mind
Uh babe you'll be askin' for more
Come on rock me down on the floor
