Danger - baby you're my saviour
Soft night will fall, our guardian angel
I feel mystery all in the air
(I feel mystery in the air)
That's why I always have to have u here

The mystery of u and me - night and day
The mystery of u and me - strange to say
I'd live a thousand lives 4 u
Each one right by your side, I'll do

Night falls - shadows of the ceiling
Hold me I'm tied up to this feeling
I feel mystery all in the air
That's why I always have to have u here

I feel the mystery in the air

The mystery of u and me
