Will you be there when the fire turns outer ?

(Baby,baby)

Will you be there when the fire turns outer
'cause it is more than a flame of a night
will you be there when the sun has gone down for gold
will you take care that it's alright?

My friends and I were in a party move
'cause we were sick of all the toilet tunes
I saw you first down in favourite club
boy you were drinking shown you what i've got
and you love me till i cry-y-y

Will you be there when the fire turns outer
'cause it is more than a flame of a night
will you be there when the sun has gone down for gold
will you take care that it's alright?

I'm so afraid that you will leave again
my soul was searching for a sunshine man
i won my stand most what i had in mind
now my emotions give me different signs
will you hold me when i cry-y-y?

Will you be there when the fire turns outer
'cause it is more than a flame of a night
will you be there when the sun has gone down for gold
will you take care that it's alright?
