I begin to wonder, baby  
What's goin' on when I'm not at home  
I begin to wonder, baby  
I know you ain't there all alone

Every time I have to leave you, woman  
I wonder who's takin' my place and turnin' you on

I begin to wonder, woman  
Why I worry everyday  
I said, I begin to wonder, woman  
Wonder why I feel this way

I be home early Tuesday evenin'  
Better hide your part-time man away

I begin to wonder, woman  
Why we wasted all this time  
I begin to wonder, baby  
Wonder why we didn't see the signs

What we did, we've now forgotten  
What we had, we've left behind
