Now you packed up to leave me  
And lord knows I'm about to die

Ow, you packed up to leave me  
And lord knows I'm about to die

But just before you leave me  
Please give me something to remember you by

interlude

Now my days are gonna be lonely  
And all my nights, I'm gonna cry

Now all my days are gonna be lonely  
And all my nights, I'm gonna cry

But maybe I understand you Donna  
If you just give me  
Give me something to remember you by

interlude

Now I can hear your train are coming  
And pretty soon you'll be saying goodbye  
Now I hear your train are coming  
And pretty soon you'll be saying goodbye

But beg you please have mercy babe  
You just leave me something  
Please leave me something babe  
Please leave me something  
To remember you by
