

Jeff's Trippin Out "Got My Act Together"

Visit "[Got My Act Together](#)" on [MotoLyrics.com](#)

I'm calling you from the land that I stand on
Wondering when your returning to it?
The only problem with our relation
Is you sail off just like a ship
oh, you sail off just like a ship...

Well I can find a bright light
But I can't shine light on you
You need my arms around you tight
When the darkness comes on through
...cold, and lonely
That's where you left me
Well now I've got my act together
You'll get yours eventually

I'm just here to fix the bend in space
And return back to my time
You'll thank me some day
And I suggest you'd apologize

Well I can find a bright light
But I can't shine light on you
You need my arms around you tight
When the darkness comes on through
...cold, and lonely
That's where you left me
I've got my act together
You'll get yours eventually

Zooming in from big to small
Trying to get away from your outta sight mind
I'm tuned into you crystal ball
Your crazy, lazy, pills will never make it all fine

...Just like a ship
Sail away baby just like a ship
Sail away oh, just like a ship
