My girls a real piece of work  
I attempt to explain my mind  
she Can't just frame me on the wall  
She needs to waste my time  
She needs to eat and breathe  
and Listen to Sublime  
Read the facts, as I relax  
Token' Back on the Pipe

I'm all stoned and need to cook  
Nothing is there, but to have to look  
Then I get distracted  
by the ways of the plays that the people acted

My girls a real piece of work  
I attempt to explain my mind  
she Can't just frame me on the wall  
She needs to waste my time  
She needs to eat and breathe  
and Listen to Sublime  
Read the facts, as I relax  
Token' Back on the Pipe

Please explain your fact or fiction  
Entertain, I got rotation  
If it rains, I got flotation  
Legalize this fucked up nation

My girls a real piece of work  
I attempt to explain my mind  
she Can't just frame me on the wall  
She needs to waste my time  
She needs to eat and breathe  
and Listen to Sublime  
Read the facts, as I relax  
Token' Back on the Pipe
