This will never end,
I can't comprehend,
I've lost everything,
But I am still drowning,

You're making me fall on my knees,
Have to make you stop by begging,
Everything I knew,
Was never really there,
Was never there,

If it was easy,
I would not complain,
If I could just reach,
There would be less pain,

You're making me fall on my knees,
Have to make you stop by begging,
Everything I knew,
Was never really there,
Was never there. X2
