[Verse 1]

From the girl in my dreams and I knew about the hood  
had a little baby life was all good got a call that  
something was wrong..? next thing I know I was back to  
my own ways going out till they came and took me  
away now everything I worked for is gone.. gone..

[Chrous]

Ohhhhh

I wish I would have turned away

I would still be free today

It don't pay to be the hero

Ohhhhh

should have looked into my babys eyes

Before I took another mans life

It don't pay to be the hero

There ain't nothing I can say to bring you back

I lost you just like that

I wish that we could turn around (I wish that we could  
turn around)

There ain't nothing I can say to bring you back

I lost you just like that (lost you just like that..)

I wish that we could turn around (I wish that we could  
turn around..)

[Verse 2]

Don't know why it was so had to let the life go

I was here wasn't thinking about my family at home

And how much they depended on me.. Now I'm looking  
at 20 years of no more roads I'm not gonna get the  
chance to see my baby girl, whats she gonna think  
about her daddy... Daaddy....yo....

[Chrous]

Ohhhhh

I wish I would have turned away

I would still be free today

It don't pay to be the hero

Ohhhhh

should have looked into my babys eyes

Before I took another mans life

It don't pay to be the hero

There ain't nothing I can say to bring you back  
I lost you just like that (no no no noo...)  
I wish that we could turn around (I wish that we could  
turn around)  
There ain't nothing I can say to bring you back  
I lost you just like that  
I wish that we could turn around

[Bridge]

So many nights I don't sleep (nights I don't sleep)  
Coz I think about the things that I've seen.. (Things That  
I've Seen)  
It was really driving me crazy.. See the glass separates  
my family from me..

[Chorus]

Ohh Ohh Ohhhhhh  
I wish I would have turned away (I wish I would have  
turned away)  
I would still be free today (I would still be free today)  
It don't pay to be the hero (don't pay to be the hero)  
Ohhhhh  
should have looked into my baby's eyes (should have  
looked into my baby's eyes)  
Before I took another man's life (Before I took another  
man's life)  
It don't pay to be the hero (It don't pay to be the  
heroooo..wooh..)

There ain't nothing I can say to bring you back  
I lost you just like that (I lost you just like that)  
I wish that we could turn around (I wish that we could  
turn arounddd....)  
There ain't nothing I can say to bring you back (nothing  
I can say to bring you back)  
I lost you just like that (I lost you just, I lost you just, like  
that wooh..)  
I wish that we could turn around

[Outro]

From the girl in my dreams and I knew about the hood  
had a little baby life was all good got a call something  
was wrong....?
