Without you
(Without you)

Why did it end this way?
When we had something special in our heads
How, how could you leave me here alone?
We'd only started to be more than friends
I need you, want you, can't believe you're gone

But I carry on without you
Learn to breathe without you
Still feel you by my side
Still need you in my life
But I carry on without you
Learn to breathe without you
Still feel you by my side
Still need you in my life

But I carry on without you, without you (without you)

Here, I stand alone and face the world
I wonder can you see me where you are
So I walk alone
Thinking of the memories we shared
Wishing you could hear me from your star
But I need you, want you and can't believe you're gone

But I carry on without you
Learn to breathe without you
Still feel you by my side
Still need you in my life
But I carry on without you

Carry on without you
Learn to breathe without you
Still feel you by my side
Still need you in my life
But I carry on without you
Learn to breathe without you
Still feel you by my side
And I need you in my life

But I carry on without you
And I learn to breathe without you
Still feel you by my side
Still need you in my life
But I carry on without you
Learn to breathe without you
Still feel you by my side
And I need you in my life

But I carry on without you
