I think I like you too much
Cause I can't see straight
And I don't think about anything else else else
Somebody call a taxi
Cause I'm way too buzzed
To make it home by myself
Oh oh

No I haven't been drinking
But this feels like an addiction
And I know I've got the symptoms
I'm in love love love
Now the whole world is spinning
And I'm stuck with blurry vision
Yeah I wish I've been drinking
I'm in love love love
Oh oh

I think about you too much
Yes sometimes I swear
I forget to remember myself
Oh oh
Love is on a bar stool
And it's calling the shots
You belong to me and nobody else
Don't know why you go straight to my head

No I haven't been drinking
But this feels like an addiction
And I know I've got the symptoms
I'm in love love love
Now the whole world is spinning
And I'm stuck with blurry vision
Yeah I wish I've been drinking
I'm in love love love
Oh oh

I think about you too much
Yes sometimes I swear
I forget to remember myself
Oh oh

Love is on a bar stool
And it's calling the shots
You belong to me and nobody else
Don't know why you go straight to my head

No I haven't been drinking
But this feels like an addiction
And I know I've got the symptoms
I'm in love love love
Now the whole world is spinning
And I'm stuck with blurry vision
Yeah I wish I've been drinking
I'm in love love love
Oh oh

No I haven't been drinking
But this feels like an addiction
And I know I've got the symptoms
I'm in love love love
Now the whole world is spinning
And I'm stuck with blurry vision
Yeah I wish I've been drinking
I'm in love love love
Oh oh
