Trying hard to fix it  
He tried hard to change  
Don't you know we're all the same?  
To you he was the one for her  
And her the one for him  
Don't you know, no one's to blame?

But running 'round in circles  
You seem to love this game  
Never satisfied with anything  
Half - alive, when we're alone  
Yet, we're always with someone  
What is it we're looking for?

I'll never be lonely,  
I'll never be lonely,  
I'll never be on my own  
I'll never be lonely,  
I'll never be lonely,  
I'll never be on my own

The camera calls between them  
Fade as time goes by  
All because they've said goodbye  
She's feeling further now  
Than she did back then  
She keeps a picture deep within

She knows we're all connected  
She knows that we're all one  
Like a compass' neath the sun  
We go on our separate ways  
And, yet, she feels him near her  
She said I'll love you 'til the end

I'll never be lonely,  
I'll never be lonely,  
I'll never be on my own  
I'll never be lonely,  
I'll never be lonely,  
I'll never be on my own

You'll always be apart of me  
And I apart of you, I know  
You'll always be apart of me  
And I apart of you, I know  
You'll always be apart of me  
And I apart of you, I know  
You'll always be close to me  
And I so close to you, I know

I'll never be lonely,  
I'll never be lonely,  
I'll never be on my own  
I'll never be lonely,  
I'll never be lonely,  
I'll never be on my own
