It's a funny thing  
When you lose your faith  
In a grand design  
Like a flickering  
On a backlit screen  
Shadowed thoughts arrive

Starlight  
In the dead of night  
Takes the towers down  
Sure sign  
That the plan devised  
Came from nothing known

These nights fall through glass  
Her eyes make the man

Trees lean  
Over empty streets  
As the power goes  
No sign  
Of a pearl inside  
Deals a crushing blow

You realize  
That the sunny side  
Made the shadows cold  
Pedals fold  
Waiting for the rise  
Of another sky

These nights fall through glass  
Her eyes make the man  
Said I won't look back

Starlight in the dead of night  
Eyes wide in the dead of night

These nights fall through glass  
Her eyes make the man  
Said I won't look back

These eyes too will pass
