Contact the lawyers
Tell them not to breathe
It's getting hot outside
We're going to see if we can leave

Tie down the branches
Pack up the seeds
Take all that leaves with you
We're going to see what we can see

It's not up to me
To be what you need

Run up the hillsides
Just make believe
Pull up the weeds and make them
Safe for us to eat

It's not up to me
To be what you need
It's not up to me
You get what you see
