I saw the sun rise in your eyes
Than it went behind a cloud
Hail and snow of disbelief came raining down
I saw the sun set in your eyes
Filled me with wonder and surprise
Never knew I loved a aqua sunrise til I saw your eyes

I saw the glory of the risen Lord
Faithfully across the shore
I've been in this boat before
So far, so far away from shore

I saw a million reasons to love
But only could stand on one
Because you loved me
Because you loved me first

But if I'm gonna stand in the pouring rain
I'm gonna make sure that your there holding my hand
And If I'm gonna stand in the darkest valley
I'm gonna need you to shine your light for me
And if I'm gonna fall into a hole
I'll give you the rope so you can pull
And If I'm gonna jump to a land of new heights
I'm gonna bring you up to see all the sights
And If I'm gonna play a game of hide and seek
You be the hide and I'll be the seek
And If I'm gonna give my bread to the hungry
I'm gonna need you to give your bread with me

I saw a darkness I never want to face
It's covered with light when I kiss your face
I saw a light consuming me, reflections of love
Cut soul deep
I saw a yellow butterfly
This time I won't mistake the signs
I saw a vision of you and me
Holding tightly the way it should be

But if I'm gonna grow old and wrinkly
I'm gonna want you there turning grey with me

And if I'm gonna leave a legacy
I'm gonna want your name written next to mine in
history
If I'm gonna go out with a bang
You be the trigger and I'll be the bang
And if I'm gonna have to die eventually
I'm gonna want you there waiting for me
And if I've got a song in heaven to sing
I'm gonna need some one to harmonize with my
melody
If I believe won't you believe too?
I don't have enough faith for you and me

I Believe-in a greater love (3x)
