Tell me why you had to leave me, oohw
Making me think we were gonna last, oh
& God knows if I couldve read your mind
For your ring I never wouldve spent that cash, no
You got my heart in pieces all over the place
I feel just like shattered glass, oh
& if I never let another in, it's all on you
Yeah it's all your fault, yeah
& no I don't wanna

I dont ever wanna hear your name
& I don't ever wanna see your face
And I don't ever want you around me, no
Cuz I really tried to make it work
And God knows that it really hurts
I think it's best that you should leave
& stay the hell away from me
& stay the hell away from me, ohw noo

You told me that you wanted to be young and single
Well, go ahead miss do your thing, oh
You told me I should move and do my music
& you would concentrate on your degree, oh ohww
Well truthfully I think that's all some bull
You just couldnt handle what you wanted, oh ohww
Telling me every other week
You think you made a mistake
& that's one you gotta live with
Cuz I don't

ever wanna hear your name
& I don't ever wanna see your face
And I don't ever want you around me, no
Cuz I really tried to make it work
And God knows that it really hurts
I think it's best that you should leave
& stay the hell away from me
& stay the hell away from me, oohww

Goodbye lonely nights
Crying over you
I'm good now

I'm good now
Goodbye to you
Don't leave no message on my phone
I'm better off alone
I'm better off alone

I don't ever wanna hear your name
& I don't ever wanna see your face
And I don't ever want you around me
I really tried to make it work
And God knows that it really hurts
I think it's best that you should leave
& stay the hell away
Stay the hell away from me
Stay the hell away
Stay the hell away.
