Its getting too fast now, a little too brash now
Got to slow down baby, one thing at a time
Make a little friction, while we get the slick on
Breathing nice and heavy, you're drawing me out

Slow hot and sweaty, turn it on
Slow hot and sweaty, baby let go
Slow hot and sweaty, slip it and slide
Slow hot and sweaty, can you feel it deep inside

Your skin is shining, can you feel me pining
For that little something, something, you always do
Ya sweet as a mango and steamy like the congo
Woman I can't hold on much longer, hold on much longer

Slow hot and sweaty, turn it on
Slow hot and sweaty, baby let go
Slow hot and sweaty, slip it and slide
Slow hot and sweaty, can you feel it deep inside
