We are not making love
Cause love is making us
We are not making love
Cause love is making us

In love with you
Emotionally feeling you
My spirit deep inside of you
Deep inside your mouth
And all of sudden
I hear you say
Don't stop
Baby keep it right there
Your .. stimulations incredible
My patience is impeccable
It doesn't really matter if we take it slow

Chorus
We are not making love
Cause love is making us
We don't have to kiss
Don't even have to touch
Word we say
The vibe that we given
Is more than just enough
We are not making love
Cause love is making us

Having the ..
Watching the night love with you
Talking it over by thee freaking things we are gonna do
I say don't stop
Baby keep it right there
Your .. stimulations incredible
My patience is impeccable
It doesn't really matter if we take it slow

Chorus
We are not making love
Cause love is making us
We don't have to kiss

Don't even have to touch
Word we say
The vibe that we given
Is more than just enough
We are not making love
Cause love is making us

Once this feeling is gone there ain't nothing you can do
You can .. innocence is gone then it's holding on for
good
So I think God has giving you to me
And forgiving me to you
Just take our time cause blessing is coming straight
from above

Chorus
We are not making love
Cause love is making us
We don't have to kiss
Don't even have to touch
Word we say
The vibe that we given
Is more than just enough
We are not making love
Cause love is making us

Chorus
We are not making love
Cause love is making us
We don't have to kiss
Don't even have to touch
Word we say
The vibe that we given
Is more than just enough
We are not making love
Cause love is making us
