Now everybody,
Has a right to be living their lives...
Oh but we'd a long, long way long way from paradise.
If there was freedom
Tell me why everybody wants to fight..
Oh 'cause we'd a long,
Long way a long way from paradise.

You might be strong enough,
You might be rich enough,
You might be blind enough:
To push it all outside.

No matter what you do,
It keeps come back
To me and you.

Chorus:
Give a little bit of love
And you get it back,
Give a little bit of pain,
You call it a track.
For every little thing
That you say or do
Give a little bit of love
And it'll come back to you.

You got you reasons,
But are you sure
Their reasons to be right?..
Oh 'cause we'd a long,
Long way a long way from paradise.

We must be strong enough,
We must be brade enough,
We waited long enough
Now it's time to say goodbye.

We got some rules to band,
To let the lies and truth belong.

[Chorus]

Ohhhh...

I believe in peace and harmony,
You got to believe in love
Before you can be free
So take her hand
Everybody make a friend
I want you to believe in love
Like I believe

Give a little bit of love... love
A little bit of pain... pain
Give a little bit of love...
A little bit of love

Ohhh...

[Chorus]
