When I first saw you I just knew you were the one
But I didn't fit into your picture
You saw the black lines but you coloured them in wrong
Don't use the bright tones for the soft boys
'Cause the soft boys ain't that strong

What about all the things that we've been through
Nights of endless conversations
Not a thing that I won't do
God I gotta get some answers

You made me think that you liked me but I was wrong
You blew me up just to deflate me
And like a levelled building once I stood up tall
But you molested my foundations
I was heading for a fall

What about all the things that we've been through
Nights of endless conversations
Not a thing that I won't do
God I gotta get some answers

What about all the things that we've been through
Nights of endless conversations
Not a thing that I won't do
God I gotta get some answers

What about all the things that we've been through
Nights of endless conversations
Not a thing that I won't do
God I gotta get some answers

What about all the things that we've been through
Is there still a 'me and you'
What about all the things that we've been
God I gotta get some answers
