Sat down and talked about it
Considered every single fact
Stood up and we shook hands
Agreed to keep on being friends
Which part didn't you understand
Chorus:
Hey well I'm sorry we couldn't work things out
The way that we were supposed to do
And now you're saying that everything's my fault
Although the one who's wrong is you
Fed up with our discussions
Are you trying to let go
Just put this to an end
Man you don't seem to understand
You chose the wrong way to react
Chorus
Because you're pissing me off with all the bullshit you
talk
All around me, all about me
You're pissing me off with all the shit you talk
Chorus
Hey well I'm sorry that we couldn't work things out (x2)
