Come around
Cause you always keep slowing us down
Your opposing opinions are breaking us
Damn right you are all deceptive
And I can't see it turn around
Come on we are all effective
Don't burn the bridges

I'm dying
The waiting wears me out
I'm trying
Cause the waiting wears me out
Worn out! Worn out!

From day one you've done nothing just leading us on
We won't buy your life forever
We've been fooled for too long to go on with that
I know but you are a regret
Damn right you are all deceptive
And I can't see it turn around
Come on we are all effective
Don't burn the bridges
I'm dying
The waiting wears me out
I'm trying
Cause the waiting wears me out
Worn out! Worn out!

Damn right you are all deceptive
And I can't see it turn around
Come on we are all effective
Don't burn the bridges

I'm dying
The waiting wears me out
I'm trying
Cause the waiting wears me out
Worn out, Worn out!
Worn out, worn out!
Worn out!
