You drive me crazy, you drive me mad,
My mind is burning outside your bed,
My sweet Lolita, I fell in love,
Your sweat is bitter, your hands are rough.
Ref: You - baby driver! | 3 times
You grab my soul away, away, away!
In such desire I lose my head,
I sink in fire, I fall in dread,
I gave you all things I got to give,
Please give me one thing I need to live.
Ref.
You'll be my pussy, I'll be your son,
I wanna eat you, like everyone,
Don't ever leave me, don't ever go,
And just forgive me, I love you so!
