So there was a time I cared about  
The way you were trying to get my mind

Now that I am thinking  
I just push it for the music in my mind

Yeah, I want to push it to create a new situation in you  
lives

Now that I am thinking  
I just push it for the music in my mind

I just push it for the music in my mind  
I just push it for the music in my mind  
I feel fine

The rhythm's right here  
Fortunately is coming back

Music is not going with your problems  
And my problems and you father and my mother  
Stay behind

So push it my mind  
Push it your mind  
Push it for the music in your mind  
I push it for the music in my mind

Push it for the music in your mind  
I just push it for the music in my mind  
I just push it for the music in your mind  
(Push it for the music in my mind)  
(Push it for the music in my mind)

Push it for the music in my mind
