That cyclone made a mistake
I want you to hear
Electric crash has to come
It should be me, it can be you
It should be me

Begun the natural fight
There we try to remain
That's why kitchens, that's why sofas
That's why so many lights and candles
Lighting the night... mare

It should be me, it can be you

Are you moving?, this is moving, are you moving?
Are you moving?, this is moving, are you moving?
Are you moving?, this is moving, are you moving?
Are you moving?, this is moving, are you move?

It should be me, it can be you
It should be me, it can be you

Are you moving?, this is moving, are you moving?
Are you moving?, this is moving, are you moving?
Are you moving?, this is moving, are you moving?
Are you moving?, this is moving, are you move?

I began having drops that made mud
Store of decorates and dresses
Love crash has to come

It should be me, it can be you
It should be me...
