cruelest
almost
always to ourselves
it musn't
get any better
off

it's in our hands : it always was
it's in our hands : in our hands
it's all there : in our hands
it's all there : in our hands

well
now
aren't we scaring ourselves
unnecessarily?
aren't we trying too hard?

'cause it's in our hands
it's in our hands
it's all here : it's in our hands

look no further
look no further

it's in our hands : it always was
it's in our hands
