It's not meant to be a strife
It's not meant to be a struggle uphill
Ooh I
It's not meant to be a strife
It's not meant to be a struggle uphill
Ooh I

You're trying too hard
I am watching you struggle
And struggle and
You're trying too hard, ah

It's not meant to be a strife
It's not meant to be a struggle uphill
It's not meant to be as dry
It's not meant to be a struggle uphill

It's warmer now
Lean into it
Unfold in a generous way

It's not meant to be as dry
It's not meant to be a struggle uphill
It's not meant to be as dry
It's not meant to be a struggle uphill

I'm praying
To be in a generous mode
The kindness kind
To share me quiet late

It's not meant to be as dry
[Incomprehensible]

If you're crying
Undo, undo
If you're sweating
Just undo, undo
If you're bleeding, darling
Undo
