I've seen that look before. I see it in your eyes.
I've seen that look before. you've lost control of your
life,
Control of your life.

Isolation, desperation, regulation, intimidation,
Despite all the subjugation,
Doesn't matter what they say cause I won't listen
anyway

I sit back and laugh. see I told you so.
You followed too many rules. now there's no place to
go,
No place to go.

Isolation, desperation, regulation, intimidation,
Despite all the subjugation,
Doesn't matter what they say cause I won't listen
anyway.

I never liked to listen to anybody else
I guess that's why I'm happy and you're about to kill
yourself!
Sucker . . . the joke's on you!

Why'd you fall in the trap? you believed their lies.
You joined the mainstream world. for that I despise
you,
I despise you.

Isolation, desperation, regulation, intimidation,
Despite all the subjugation,
Doesn't matter what they say cause I won't listen
anyway.
