I see the same old shit every single day  
Living in this town I watch my life just fade away  
Small man with a gun trying to prove his worth  
Born into this hell I know that I was fucked at birth  
Disorder reigns supreme  
In this town of lost hope and broken dreams  
Chaos finds away  
To creep into your life every fuckin' day  
Cops busting heads gangsters acting tough  
I've been through all this shit I know that I have had  
enough  
They wonder why johnny put a bullet in his head  
Cause he rather fucking die than live in this shithole  
instead  
Disorder reigns supreme  
In this town of lost hope and broken dreams  
Chaos finds away  
To creep into your life every fuckin' day  
Will it ever cease-no I don't think so  
So we can live in peace-what a joke  
Create your own demise-is all your doing  
Blinded by your lives-of false hope  
Disorder reigns supreme  
In this town of lost hope and broken dreams  
Chaos finds away  
To creep into your life every fucking day
