"Killing Floor"

There's this group around that calls themselves prolife
Well, instead they should call themselves pro-death
Because by taking away our freedom of choice
They're are going to force many women,
Who don't want to bear children, to the back alley
And many women are going to die from these back
alley abortions!
But these people don't seem to care...
Operation rescue, what do you want me to do?
Shove a coat hangar up my cunt?

I had an abortion is a back alley
I had an abortion in a back alley
I had an abortion in a back alley
I had an abortion in a back alley
And now Im bleeding to death on the killing floor
