Coming from inside
Heaven's here alive
Check it out salvation comes from the mind
Tapestry of light
A thousand points unite
So fresh and new we could not dare to see
I'm running past the wind
I'll find the hope within
Wait for those to lead
A kind hand to feed
When gardens grow in our backyard
Time will speak in tongues
It whistles to the young
It whispers won't you take a chance
Come on, we'll sing, we'll laugh, we'll dance
I know it seems
Only like a dream
There is love supreme
I know you'll see
What we ought to be
There is love supreme
Setting for the shore
We reach without an oar
Move along or a drift will come break the course
Tools are made for life
A diamond needs a vice
Your lover needs your hand to warm
Through the night
We'll march without a flag
We follow Superman
Hey, here I am, I'm everyman
Come on, we'll fly past sea and land
I know it seems
Only like a dream
There is love supreme
I know you'll see
What we ought to be
There is love supreme
Every soul's a place
To build upon a faith
To look inside and watch it grow

Come on, I know I'm not alone
I know it seems
Only like a dream
There is love supreme
I know you're gonna see
What we ought to be
There is love supreme
I'm lookin' baby
Looking for me
The river's stretching wide
Won't drown again, drown again
Lord I know, there's a river so deep
Yet gold lies underneath
Just come to me
I know I'll find love supreme
