Looking outside
Through the frosty window
We know something's behind gingerbread houses
The lie the game that holds us until
The ones that hide are done making candy coffins

Abusing the condition
Abusing the gingerbread

Dig rape slice kill
This will destroy
Hunt take violate
And we all fall down

Get the cherry on top

Watching from a tower
All of the King's men
Taking all the gumdrops

Blood in candy land

Sorrow icing covers the trail
Brittle bones screaming
It's a game of pretend

Dig rape slice kill
This will destroy
Hunt take violate
And we all fall down
