Illuminate

Glow worms light the way

Into the strange

Violet dusk of cellophane

Popping up popping up popping up

Popping up popping up popping up

Fiber-optic display

Vines of Paper Mache

Ever growing in shape

Over peaks that radiate

Popping up popping up popping up

Popping up popping up popping up

Tripping on a swirl

It's a trap

Get out get out get out!

What's there in the distance?

Snap out of the paralysis

Ooh ooh ooh ooh

Wonders to distract you

Keep you from the horizon

Uncover this twilight

Crackle appear

Velvet meadows near

Stepping into the queer

Bound for eclipse

Popping up popping up popping up

Popping up popping up popping up
