welcome back to town they said to me and it's not too
great to be back or good to be gone neither's forever
can i make either better for me? either or fuck summer
how was yours? stick to your guns and i will come
around pulling triggers pointing fingers at nothing in
particular standing on this roof city lights are lighter
and thinking back it's not much brighter looking down
scares me looking up scares me which way is my home
city lights are lighter and thinking back it's not much
brighter looking down scares me looking up scares me
which way is my ... stick to your guns and i will come
around pulling triggers pointing fingers at nothing in
particular pull the trigger look down down forever pull
the trigger
