True love is sharper than stones and sticks.
Louder than bombs and clocks that tick
I feel as deep as the ocean blue,
when I'm standing here with you
and the world keeps spinning faster
What am I to do,
in the face of our disaster?
I've been here before,
but I don't know what comes after .
The night's a lonely place to be,
when the lights go out,
I want you here with me.

(chorus)

When I could not trust myself,
I put my trust in someone else.
But she led me astray
and then she went away.
All my lessons learned,
after all my bridges burned.
Everything felt wrong
until you came along. (repeat 6x)

It's quicker than sand, thicker than blood.
It's like a slight of the hand, a stick in the mud.
It's as deep as the ocean blue.
What am I supposed to do
now... that all your fire's gone?
How do you...want me to play along?
I know it's true....yeah, somewhere we went wrong.
But tonight's a lonely place to be,
when the lights go out,
I want some company.

(chorus)

Until you came along (until the end)
