I stopped listening a long time ago
To what was said about so and so
Sometimes I want to be left alone
But sometimes it seems like there's no place to go
Oh oh, oh oh

So many choices confront me every day
And all of life's pressures don't make it easy
I always seem to find my way
All by myself I make it through every day

Just when I'm about to give in
Just when I'm about to give up just when I'm about
To stagger off the cliff called life

I somehow find the strength to make myself go on
Even when I lose all hope and everything is wrong
There are days when I feel I've reached the end of my
rope
I've just got to hang on and find a way to cope
As I travel down life's unknown path
The further I go the more I look back
If you want to do something than make it so
If you never try it then you'll never know
Oh oh, oh oh

Just when I'm about to give in just when I'm about to
give up
Just when I'm about to stagger off the cliff called

I somehow find the strength to make myself go on
Even when I lose all hope and everything is wrong
There are days when I feel I've reached the end of my
rope
I've just got to hang on and find a way to cope

Nothing will stop me. I swear I won't let anything get in
my way.
Nothing can stop me now. nothing can stop me now.
Nothing, nothing, nothing can stop me now
