Every morning when I wake up, I got the same thing on my mind

It's a crazy world out there; you gotta keep from getting further behind!

But you won't find me; coming around any time soon

You're just too fancy in your flashy cars and your one-way ticket to the moon; uh huh!

(Chorus)

'Cause I don't need you around; I don't need you or your town!

Yea, as far as I'm concerned, you just bring me down!

(Verse 2)

You say my music's got too much edge; well, hell yeah, that's how I was taught

Screaming guitars and people up on the bars; that's the way we like to rock!

For some reason you'll always look at me just like I'm a kid

Why 'ya creeping around out back watching everything little thing I did; uh huh!

(Chorus)

'Cause I don't need you around; I don't need you or your town

Yea, as far as I'm concerned, you just bring me down

(Chorus)

No I don't need you around; I don't need you or your town

Yea, as far as I'm concerned you just bring me down!

No, I don't need you around; I don't need you or your town

Yea, as far as I'm concerned you just bring me down

Yea, as far as I'm concerned, you just; bring me down; a, down

Yes, you just bring me down; uh huh!
