Sit right back, I've got something to say to you
I love your style and the way that you move
And the stars all fall in your direction
you giving me all of your affection
I can't seem to get enough

(Chorus)

Cause the girls out there just can't compare to the
types of things that you do
I hear ya laying it down in the club up town, I wanna
know if it's true
And the boys all say just stay away
but I just wanna be standing right here next to you!
Yes yes my love, yes my love, yes yes my love, yes my
love

(Verse 2)

Ha I just wanna get you on the floor, come here girl
Show me something that I've never seen before
And the stars all fall in your direction
you giving me all of your affection
Stop..let's turn it up

REPEAT CHORUS

Aww yes yes my love, yes my love, yes yes my love,
yes my love
give it to em!

Breakdown chorus

Cause the girls out there just can't compare to the
types of things that you do
I hear ya laying it down in the club up town, I wanna
know if it's true
And the boys all say just stay away
but I just wanna be standing right here next to you!

REPEAT CHORUS
