I remember how we used to be  
It's been so long since you've looked at me  
Like I was a woman  
Tell me you want me right now  
Say I'm the one thing you can't live without, honey  
I wanna tremble  
I wanna lose my breath  
And then fall asleep on your chest

Touch me, baby touch me  
Kiss every inch of my body  
Baby love me like you love me  
Whisper words I ain't heard from you lately  
I wanna feel like I used to back when you used to  
Touch me

Don't talk just turn out the lights  
Do the things only you can do right, baby  
We've fallen apart  
Let's fall back in  
I want to make love again  
Touch me, baby touch me  
Kiss every inch of my body  
Baby love me like you love me  
Whisper words I ain't heard from you lately  
I wanna feel like I used to back when you used to  
Touch me

Touch me

Baby love me, like you love me  
Whisper words I ain't heard from you lately  
I wanna feel like I used to back when you used to  
Touch me

Oh baby love me
