"Communication Without Sound"

Visit "[Communication Without Sound](#)" on MotoLyrics.com

Turn off your radio
Come paint your pictures in my mind
Don't talk the night away
You know I ain't the talking kind
I don't want long discussions, right into the night
I don't want words
We ain't got time to play around
I don't want words
Communication Without Sound
Communication Without Sound
Communication Without Sound
Don't pass the time away
Explaining all the lives you lead
Speak only with your eyes (Just Visualise)
'Cause there is nothing more we need
I don't want long discussions, right into the night
I don't want words
We ain't got time to play around
I don't want words
Communication Without Sound
Communication Without Sound
Communication Without Sound
I don't want words
We ain't got time to play around
I don't want words
Communication Without Sound
Communication Without Sound
Communication Without Sound
Communication
Communication Without Sound
