## "We Got The Night"

Visit "[We Got The Night](#)" on [MotoLyrics.com](http://MotoLyrics.com)

I been wandering here & there  
Not knowing where I 'm going  
Seems that life's unfair  
Trouble's what I been knowing

The sky is falling see  
Despair's been after me  
The world 's not what it seems  
I need some release

We Got the night  
Can't worry bout tomorrow  
We got the night  
It's the only thing we own

We Got the night  
Don't worry bout tomorrow  
We got the night  
It's the only thing we own

I 've been searching for time to share  
The way that I've been feeling  
Need a place to unload my cares  
The dancefloor is where I'm going

The sky is falling see  
Won't let it bother me  
The world's not what it seems  
I need some release

We Got the night  
Can't worry bout tomorrow  
We got the night  
It's the only thing we own

We Got the night  
Don't worry bout tomorrow  
We got the night  
It's the only thing we own
